

## DMV/DMV-I FABRICATION SAW

### Features

- Large capacity horizontal **V-cut** saw for aluminum and PVC profiles
- Two independently controlled 45° mitering saw axes, optional 90° blade assembly (DMV-I model)
- Up-cut blade feed and computer-controlled material positioning yield the absolute minimum cut scrap
- Standard 500 mm (19.7") carbide-tipped sawblades with large cut capacity — 5" cut height at 45° without fixtures (550 mm blades optional)
- Increased tabletop capacity for fixturing up to four pieces per cycle or the positioning of selected secondary fabrication tools
- Specially balanced direct drive motors for greater reliability and lower maintenance. Each motor is 3 Horsepower and 3,400 rpm.
- Includes SXP Automatic Profile In-feed System, utilizing Servo-driven linear actuator to automatically feed lineals into cutting area or optional secondary fabrication module(s). Optional auto-load system shown above.

# DMV/DMV-I FABRICATION SAW

Operator interface via industrial grade PC workstation with flat panel liquid crystal color display, touch screen functionality and Windows-based operating system.

Features:

- 12.1" Active Matrix screen
- Pentium III 850 Mhz processor
- Simplified user-friendly screens
- Greater control of production data at the point of operation
- Detailed fault screen with text messages, pictorial trouble-shooting guidelines and direct view of PLC

DMV-I model includes 90° blade assembly

## TECHNICAL SPECIFICATIONS

### DMV with SXP Profile In-feed System

#### Blade Specifications

Diameter	500 mm (19.7") optional 550 mm (21.7")
Bore	30 mm (1.18")

#### Approximate Machine Dimensions

Length	38' - 11"
Width	4' - 6"
Height	5' - 11"
Weight	2,300 lbs.

#### Utility Requirements (CSA Certification Available)

Standard Voltage	220 Volts, 3 Phase, 50-60 Hz (Alternate voltages by transformer)
Amperage (FLA)	28.7 amps
Horsepower / Speed (per motor)	3.0 Horsepower / 3,400 rpm
Air Pressure	80 to 120 psi
Air Consumption, estimated	4.0 cu.ft./cycle
